

NEWS FROM AMANO PIONEER ECLIPSE

Attention Eagle Equipment Owners:

We're here to help you in your time of need.

Over the past few weeks Amano Pioneer Eclipse has received a high volume of phone calls from unhappy Eagle Solutions customers seeking help and advice regarding parts replacement and technical assistance.

To address these needs, we have beefed up our inventory of replacement parts to satisfy your short term needs. Belts, wheels, tensioners – whatever your requirement, you can count on our extensive distributor network as well as our factory direct customer service technicians to assist you.

In addition, due to requests from some large BSC's, we have put together an **Eagle Buffer Upgrade** kit, featuring superior Kawasaki engines combined with exclusive Pioneer carburetion.

This setup will turn your Eagle machine into a smoother running machine with the cleanest emissions in the industry.

Resurrect that dirty bird and make it fly faster, cleaner!

For a limited time, these kits will be available for \$1,200 complete, FOB Sparta, NC.

Just ask for special offer #SA017299.

For help and more information, give us a call at 1-800-334-2246.

The logo for Pioneer Eclipse features the word "Pioneer" in a black, cursive-style font, followed by a red arc that curves over the top of the word "Eclipse", which is also in a black, cursive-style font. A registered trademark symbol (®) is located to the right of "Eclipse".

Pioneer Eclipse®

Amano Pioneer Eclipse
