

Chemical Dispensing Systems

Pioneer Eclipse®

Pioneer Eclipse®

Wall Mounted Dispensing Systems

Accurately mix and dispense a variety of chemical cleaning agents and floor cleaning products with just a push of a button. AquapHyll™ wall mounted dispensing systems can mix up to eight concentrated chemicals and quickly dispense them to hand held bottles, buckets or cleaning machines. Modular design, easy installation and accurate chemical metering make AquapHyll the professional's choice in chemical dispensing.

Two Flow Settings

Fill bottles, buckets and scrubbers fast with two different flow settings.

High-pHyll™

3 gallons (11.3 liters) per minute
For fast machine fill ...

...and bucket dispensing.

Low-pHyll™

1 gallon (3.8 liters) per minute
For easy spray bottle fill up.

Modular systems.

Customize an AquapHyll dispensing system to meet the specific needs of any facility with easy to install modular systems.

3-Low x 1-High Wall mounted dispenser

PN# MASP8152

Includes 3x1 dilution control mixing dispenser, mounting hardware and chemical labels. Pictured with two storage cabinets (each holds two 2-liter bottles). PN# MA90092342

DTC Chemicals
Dilution-Tip-Concentrate ("DTC") chemicals - designed for all AquapHyll systems - are packaged in two liter bottles with color coordinated labels, icons and numbers for quick reference in multi-lingual environments.

4-Low x 1-High Wall mounted dispenser

PN# MASP8155

Includes 4-Low x 1-High dilution control mixing dispenser, mounting hardware and chemical labels. Pictured with three storage cabinets (each holds two 2-liter bottles). PN# MA90092342

4-Low x 4-High Wall mounted dispenser

PN# MASP8156

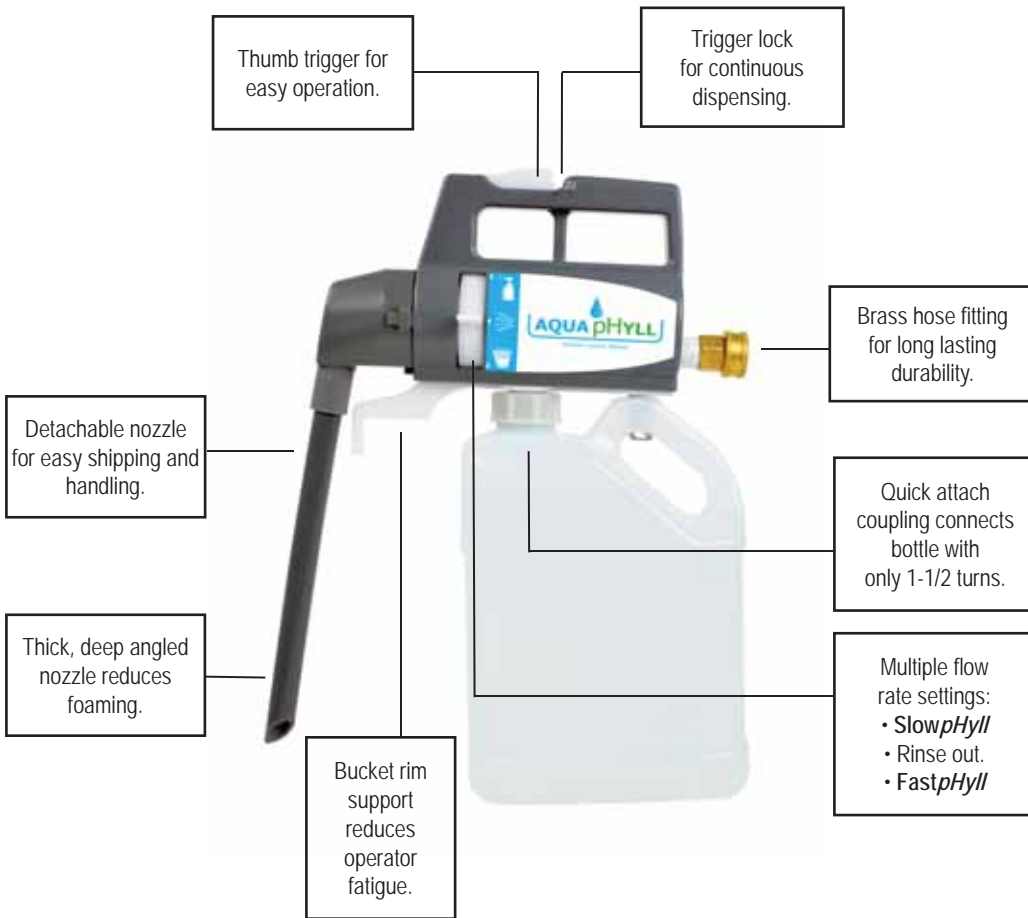

Includes 4-High x 4-Low dilution control mixing dispenser, mounting hardware and chemical labels. Pictured with four storage cabinets (each holds two 2-liter bottles). PN# MA90092342

Portable Plus™ Bottle Top Dispenser

Speed, ease and portability are the keys to any janitorial service. AquapHyll Portable Plus™ dispensers meet those needs in a compact, versatile and easy-to-use hand-held unit. Three selection settings allow the user to choose between two different flow rates or a high volume rinse. One handed operation, durable components and high impact thermoplastic construction make the AquapHyll Portable Plus™ the choice of janitorial professionals worldwide.

SlowpHyll™

1 gallon (3.8 liters) per minute
For hand held spray bottle fill up.

FastpHyll™

3 gallons (11.3 liters) per minute
For bucket or machine fill up.

AquapHyll Hose Kit

(Offered separately) # MA7600287

Kit contents:

- 6 foot (1.8 m) high pressure hose.
- Hose splitter.
- Quick connect hose fittings.
- 45 PSI (3.1 bars) fixed pressure regulator.

Pioneer Eclipse®

Chemicals - Dilution Tip Concentrated ("DTC") Chemicals are manufactured with a closed loop metering tip permanently inserted into every 2-liter bottle. These tips precisely deliver a chemical dilution that maximizes each products performance at the lowest possible cost. This closed loop system allows specially selected Amano Pioneer Eclipse chemicals to work with both the AquapHyll Portable Plus™ Bottle Top Dispenser and Wall Mount Systems.
