

Focus on Education

...from the ground up.

Pioneer Eclipse[®]
MASTERS IN THE ART OF FLOORCARE

It's no secret... our children are the future. Creating a healthy environment and preserving the planet for our children today so that they can enjoy it in the future are prime objectives at Amano Pioneer Eclipse. That's why we strive to develop "green" products specifically for public education institutions.

Consider the following:

- Using environmentally preferable floorcare and sanitation products can help reduce the environmental hazards that negatively affect children's growing, developing bodies.
- Choosing safer products and training staff in proper usage can help reduce the number of illnesses and injuries that may result from cleaning and maintenance procedures.
- Green products help reduce the risk of asthma, respiratory disorders, allergies, eye irritations, headaches, as well as cancer, reproductive disorders and organ damage.

We've been doing our homework! Creating green floorcare products that perform effectively can be challenging, yet Amano Pioneer Eclipse is dedicated to meeting that challenge. Each of our comprehensive EnviroStar Green floorcare systems feature a floor coating, neutral cleaner, stripper, maintainer and dust mop treatment — all designed to work in harmony to achieve maximum results with minimum effort.

Green products can be defined as products that contain less harmful ingredients than their counterparts. For example, a standard floor coating typically has a VOC (volatile organic compound) level greater than 10 percent. Our EnviroStar Green floor coatings have a VOC content of 2.6 percent or less.

In addition to reducing and eliminating toxic ingredients from our floorcare and sanitation products, Amano Pioneer Eclipse has focused on making our EnviroStar Green floorcare systems more durable, reducing the need to strip and recoat floors as frequently. Our EnviroStar Green products not only perform as well as or better than comparable green products and even many conventional products, but they do so without premium pricing.

Amano Pioneer Eclipse EnviroStar Green floorcare systems are ideal for school settings where taking care of the floors goes hand in hand with taking care of the environment.

Amano Pioneer Eclipse was the first floorcare company to be recognized for its efforts by both the DfE and Green Seal.

The Design for the Environment (DfE) program created by the EPA promotes the integration of cleaner, smarter, and environmentally preferable solutions into everyday business practices. All Amano Pioneer Eclipse green products are DfE recognized, and our primary floorcare components are Green Seal certified.

While we're proud of the DfE recognition and Green Seal certifications, we're even more gratified by our own success in making schools and the whole planet safer environments for children. Typically green products are formulated to meet green standards. At Amano Pioneer Eclipse, we formulate our green products to be as green as they can be.

Pioneer Eclipse EnviroStar Green Products have been formulated in Partnership with the Environmental Protection Agency's Design for the Environment Program.

When you see this logo, you know that this product meets Green Seal's environmental standard for industrial and institutional cleaners based on its reduced human and aquatic toxicity and reduced smog production potential.

ENVIROSTAR GREEN®

A NAME THAT REALLY STANDS FOR SOMETHING.

Amano Pioneer Eclipse currently manufactures 20 green products. All our EnviroStar Green products are DfE recognized and five are Green Seal certified. What does it take to be an EnviroStar Green product? A better question would be what doesn't it take? Our EnviroStar Green products contain none of the following:

- NO** Zinc-based cross linking agents
- NO** Ethylene glycol-based coalescent solvents
- NO** Bioaccumulative fluorocarbon surfactants
- NO** VOCs exceeding established regulatory limits
- NO** environmentally toxic preservatives
- NO** alkyl phenol ethoxylate surfactants
- NO** 2-butoxyethanol
- NO** phosphates
- NO** ethanolamine or ammonia
- NO** flammable solvents
- NO** added fragrances
- NO** non-recyclable packaging

Answers.

No matter what your floorcare requirements, Amano Pioneer Eclipse is the only company that can offer you a complete floorcare system consisting of chemicals, equipment, accessories, AND years of proven expertise!

PowerGlide™ Express

Our PowerGlide UHS Battery Burnisher delivers outstanding UHS performance, but with the whisper quiet, non-abrusive operation of a battery powered machine.

CleanStar™ 20

This battery powered walk-behind autoscrubber sports a 12-gallon (14 liter) solution tank for fewer fill-ups and traction drive for easier operation.

Gazelle® Electric

Quiet. Unobtrusive. But still full of burnishing power. The Gazelle electric burnisher features adjustable pad pressure with a highly effective dust control system.

Revolution® RXL40

The ultimate ride-on ultra high-speed propane burnisher, the powerful & productive RXL40 features adjustable pad pressure, dust collection, and extreme maneuverability with a true-zero turning radius.

SpeedStar®

Smooth, efficient, and highly maneuverable, this ultra high-speed propane burnisher is available in three sizes. It makes floors look their best whether they want to or not.
